

508S | Wire Finder/Mini Locator

APPLICATIONS:

The 508S Wire Finder is used to trace energized or degenerated wires with reliable results on buried cables to depths of 3 feet and lengths up to 1000 feet. The unit can even be used to determine the approximate depth of the wire before you dig.

FEATURES:

- Determines the approximate depth of a wire before digging begins
- Transmitter and receiver are fully-adjustable for accurate locating
- Reliable results on buried cables to depths of 3' and lengths up to 1000'
- Quick-change test leads for use in any industry, even international power outlets
- Voltage protection allows use on live AC circuits
- Automatic shutoff prevents accidental battery discharge
- Both the transmitter and receiver are housed in a durable, molded carrying case with a quick reference operation guide on the inside of the lid
- Compact design
- Easy-to-understand operations

SPECIFICATIONS:

- Battery operated (two 9V batteries included)
- Molded carrying case included
